365, KGiSL Campus, Thudiyalur Road, Saravanampatti, Coimbatore – 641035.

ENERGY CONSERVATION POLICY

KGiSL Institute of technology has adopted the following policies towards Energy Conservation.

Energy Audit: The organization will conduct regular energy audits to assess energy consumption, identify areas of waste, and implement energy-saving measures.

Energy-efficient Lighting: The organization will replace incandescent bulbs with Energy-efficient LED bulbs and encourage the use of natural lighting wherever possible.

Heating and Cooling: The organisation will maintain heating and cooling systems and ensure that they are energy-efficient. It will also encourage the use of natural ventilation and insulation to reduce Energy consumption.

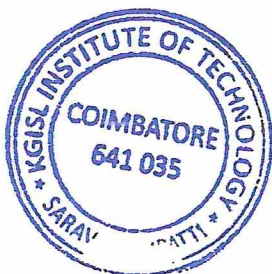

Equipment and Appliances: The organisation will purchase energy-efficient Equipment and Appliances, including Computers, Printers, and other Electronic Devices, to reduce Energy consumption.

Renewable Energy: The organisation will explore opportunities to use Renewable Energy, such as Solar or Wind power, to reduce dependence on non-renewable sources of Energy.

Employee Education and Engagement: The organisation will educate and engage Employees on Energy Conservation practices and encourage them to adopt Energy-saving behaviours at work and at home.

Green Building Standards: The organisation will adhere to Green building Standards in construction and renovation projects to reduce energy consumption and promote Environmental sustainability.

Transportation: The organisation will promote sustainable transportation options, such as public transit, Carpooling, and Biking, to reduce Carbon Emissions and Energy consumption.

365, KGiSL Campus, Thudiyalur Road, Saravanampatti, Coimbatore – 641035.

Waste Reduction: The organisation will promote waste reduction and recycling practices to reduce Energy consumption associated with waste disposal.

Monitoring and Reporting: The organisation will monitor and report on Energy consumption and savings to track progress towards Energy conservation Goals and identify opportunities for further improvement.

Overall, this Energy conservation policy demonstrates the Organisation's commitment to reducing energy consumption and promoting Environmental Sustainability. The policy outlines specific actions, targets, and encourages Employee engagement and behavioral change to achieve these Goals.
